Pathway hypotheses

Ranked by **Discovery Score**, the Pathway Prioritization Score multiplied by a composite novelty term weighted 2:1 toward exact-query literature novelty over low seed overlap. Higher values identify statistically supported, comparatively under-examined intersections for this gene panel and disease context. Unverified literature evidence uses a conservative scoring proxy and is excluded from the verified literature-sparse count. Open a row to audit its full evidence and lineage.

#	PATHWAY	DISCOVERY ▾	LITERATURE TIER	ENRICHMENT	PERM. Q	BIOLOGICAL SUPPORT
1	GAB1 signalosome REAC:R-HSA-180292 REAC SEED-INDEPENDENT	2.009	HIGHLY NOVEL 0 PubMed hits	PPS 2.009 combined p* 8.9e-13	0.002	15.0x fold; 2 genes 0% cardiac
2	Signaling by NTRK2 (TRKB) REAC:R-HSA-9006115 REAC SEED-INDEPENDENT	1.984	HIGHLY NOVEL 0 PubMed hits	PPS 1.984 combined p* 1.3e-14	0.002	17.2x fold; 3 genes 0% cardiac
3	Cardiogenesis REAC:R-HSA-9733709 REAC SEED-INDEPENDENT	1.629	NOVEL 11 PubMed hits Unverified: evidence provenance unavailable	PPS 2.143 combined p* 3.7e-07	0.002	31.8x fold; 7 genes 25% cardiac
4	Signal transduction by L1 REAC:R-HSA-445144 REAC SEED-INDEPENDENT	1.432	NOVEL 19 PubMed hits Unverified: evidence provenance unavailable	PPS 2.015 combined p* 2.1e-13	0.002	18.4x fold; 3 genes 2% cardiac
